

## **Program and Project Assurance Division (QE)**

The Program and Project Assurance Division (PPAD) assures that products are of high quality and operate safely by minimizing defects and reducing risks to ensure mission success of NASA programs and projects.

### **Launch Vehicle Systems Team**

Provides value-added support to NASA's Launch Vehicle Programs/Projects by assuring safety and mitigating design, fabrication, manufacturing, testing, assembly and operational risks.

### **Space Systems and Aeronautics Research Team**

Provides value-added SMA support to GRC's aerospace programs/projects by assuring safety and mitigating design, fabrication, manufacturing, testing, assembly and operational risks.

### **Mission Support Team**

Provides leadership and expert knowledge in Quality, Risk Management and Program Assessment; a source for innovation in quality assurance and process improvement.
